

## SYSmark 2012 Version 1.0.0.84 Release Notes

### General Notes:

- If you DVD's are labeled 1.0.0.84 you do not need to install this patch
- 1.0.0.84 adds support for non-English languages on Win7: French, German, Russian, Japanese, Brazilian Portuguese, and Spanish
- Now supports Win7 N and Vista N editions
  - For Win7 N and Vista N editions user must obtain and install Windows Media player manually, **prior** to installing SYSmark 2012: <http://windows.microsoft.com/en-US/windows/downloads/windows-media-player>
    - Win7 N requires Windows Media Player 12
    - Vista N required Windows Media Player 11
  - Do **NOT** update Media Player if you are not using N editions of Windows
- Patch 1 installer supports both versions 1.0.0.54 and 1.0.0.70 as labeled on your DVD's.
  - RTM installer (1.0.0.54/1.0.0.70) will not detect an existing instance of Patch 1
  - If the older version (RTM release) is installed over the newer version (patch 1) the installation will be corrupted
